Portfolio: Ali Hamza

Education

COMSATS University Islamabad Lahore Campus

Lahore, Pakistan

Bachelor's in Computer Science

Skills Summary

- **Languages** HTML, CSS, JavaScript, SQL, Java
- **Frameworks** Node.js Express.js, Prisma
- **Libraries** React.js, Bootstrap, Tailwind CSS, Redux Toolkit, RTK Query
- **Databases** SQL, MySQL, PostgreSQL, MongoDB, Firebase Firestore / Realtime DB
- **Additional Skills** AWS, Stripe, TFS, Git/GitHub, Material UI, Swagger, TSOA

Work Experience

Software Engineer | [Sortup](#)

December 2024 | September 2025

- Developed and maintained backend systems using **Node.js / Express**, with a PostgreSQL database as part of the **PERN** stack.
- Designed and managed APIs and system flows, collaborating closely with frontend engineers to ensure seamless integration and feature delivery.
- Took on frontend tasks (React / UI) when needed to accelerate delivery and bridge gaps between frontend and backend.
- Participated in team meetings to solution-design technical requirements and project workflows, spanning both frontend and backend concerns.
- Conducted code reviews and provided mentorship to interns on code quality, architecture, and best practices across the full stack.
- Managed production deployments of Node.js/Express apps on **AWS EC2**, including performance monitoring, troubleshooting, and scaling.
- Implemented and maintained **Stripe** webhooks for payments—ensuring secure validation, idempotency, and error handling.
- Executed S3 bucket data migrations and lifecycle management for production data workloads.

Full Stack Web Developer | [Commit Stash](#)

February 2024 | November 2024

- Built and maintained apps using React, Node, and Firebase.
- Managed communication between tech and non-tech teams.
- Contributed to both frontend and backend, including Node.js, Express.js, React, Postgres.

Flutter Developer Portfolio Website | [Upwork](#)

18 Jan, 2024 | 28 Jan, 2024

- Developed a responsive portfolio website for a Flutter developer using React.js and Tailwind CSS.
- Ensured seamless navigation and optimal performance across all devices.
- Collaborated closely with the client to meet design and functionality needs.

Projects

Art Nest Social App | Full Stack

- **Tech Stack:** Next.js (frontend), Node.js (backend), Firebase (for file storage).
- **Objective:** Social platform for sharing and discovering art.
- **Features:** User authentication, profile management, artwork uploads and sharing.
